Applicant respectfully requests revival of the above-identified patent (U.S. Patent No. 6,799,144) under 37 CFR 1.137(b). Applicant unintentionally failed to pay the maintenance fee due March 28, 2009. Applicant has enclosed a Small Entity 3.5 Year Maintenance Fee Payment of \$490 and the \$65 surcharge fee herewith. Applicant asserts that the entire delay in submission of the required Maintenance Fee from the due date until the filing of this petition was unintentional. As the application that resulted in this patent was filed after June 8, 1995, Applicant believes that a Terminal Disclaimer is not required for this application.

A Petition fee of \$1640.00 as set forth under 37 C.F.R. 1.20(i)(2) is also included herewith.

Petitioner, Gigamax Technologies, Inc., is successor in title to the Present Patent having purchased the assets from the creditors of the previous Assignee, Wavecrest Corp., which became insolvent and closed for business on July 29, 2008.

The present Patent is one of several applications and patents that became abandoned for lack of responses and maintenance fees after this period. As asserted in the attached claim of small entity status, the Petitioner, Gigamax Technologies, Inc. is a small start-up company. Gigamax Technologies, Inc. only recently completed purchase of, and clear title to, the assets of Wavecrest Corp. after entering to a conditional

purchase agreement on March 3, 2009. Gigamax Technologies has been involved in organizing the company, securing start-up funding and inventorying assets with limited access to personnel and funds. Gigamax Technologies, Inc. has only recently become aware of the applications and patents that became abandoned and is now responding in attempt to revive after gaining title to them.

If the Examiner has any questions regarding this petition please feel free to contact the undersigned at 651-336-8307 or by email at awalseth@gigamaxtech.com.

## WARNING:

Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment purposes) is never required by the USPTO to support a petition or an application. If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application or issuance of a patent). Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). Checks and credit card authorization forms PTO-2038 submitted for payment purposes are not retained in the application file and therefore are not publicly available.
